DIRECTOR'S MESSAGE

DR. RAJU DESHMUKH

President (DBUSPM)
& CMD (Suretech Hospital & Research Centre Ltd.
& Suretech College of Nursing).

Since I was a boy, my father Shri Ganpatrao Deshmukh had imprinted in my thoughts that I should become a doctor. At that time, there was only one medical college in Vidarbha i.e. in Nagpur. By great struggle and by God's grace and little hard work, I could obtain MBBS, MS, FRCS (Orth.) M.Ch. (Orth.)

I was also successful in U.K. I used to think that why we can't have a beautiful and efficient hospital in India? So I came back with vision, dedication and best wishes of my friends and relative, I was very successful in my orthopedic practice.

Then, I thought that I should have a Multi-Specialty Hospital, which is of world standard. That we are doing successfully in Suretech Hospital & Research Centre Ltd., Nagpur. We have all latest medical equipments for giving excellent treatment.

Though the Nursing was good, it was lacking in expertise and dedication. Therefore, I decided to have a Nursing school attached to Suretech Hospital & Research Centre Ltd. Luckily, Dnyanpath Bahu-Uddeshiya Shikshan Prasarak Mandal came forward and we established College of Nursing with 3 courses- ANM, GNM & B.Sc. (N).

Our aim is to give respect, expertise and dedication to the Nursing profession so that our nurses educated from this institution are treated amongst the best in National & International Hospitals.

I pray to God to help me in this project.

PHILOSOPHY

The establishment, maintenance & development of this institution will prepare graduates to become exemplary citizen by adhering to the code of ethics, and professional conduct during nursing practice. Students shall receive highest grade of education for rendering quality services to promote health and prevent illness. The institution will be an ideal academic centre by focusing on desirable standard of teaching environment and will adapt to the advancements made in medical science technology. The institution will impart the knowledge; develop competency and positive attitude among students for an active participation in Health Care Delivery System.
