

62504

First Basic B.Sc. Nursing Examination, Summer 2014  
**PSYCHOLOGY**

Total Duration: Section A + B + C = 3 Hours

Section B &amp; C Marks: 60

**SECTION – B & SECTION – C**

- Instructions:**
- 1) Use **blue/black** ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) All questions are **compulsory**.
  - 4) The number to the **right** indicates **full marks**.
  - 5) Draw diagrams **wherever necessary**.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for all Sections.

**SECTION – B****(30 Marks)**2. Answer the following (**any five** out of six) :**(5×3=15)**

- a) Explain frustration with examples.
- b) Explain the factors affecting attention, giving 3 examples.
- c) Explain three advantages of being a member of a group.
- d) Give three examples to illustrate body-mind relationship.
- e) Write the characteristics of a mentally healthy person.
- f) Explain about Forgetting.

3. Answer the following (**any three** out of four) :**(3×5=15)**

- a) Explain the General adaptation syndrome by Hans Seyle with one example.
- b) Explain the Maslows hierarchy of needs.
- c) Explain the psychological needs of adolescents.
- d) Define perception. Explain the difference between illusion and hallucination.

**SECTION – C****(30 Marks)**4. Answer the following (**any two** out of three) :**(2×15=30)**

- a) Define memory.
  - i) Define learning.
  - ii) Explain the steps of learning process.
  - iii) Explain the factors that contribute to effective learning.
- b) Explain the factors that affect memory.
- c) Discuss various methods to improve memory.

**First Basic B.Sc. Nursing Examination, Winter 2012**  
**PSYCHOLOGY**

Total Duration : Section A + B + C = 3 Hours

Section B & C Marks : 60

**SECTION – B & SECTION – C**

- Instructions:**
- 1) **All questions are compulsory.**
  - 2) **The number to the right indicates full marks.**
  - 3) **Draw diagrams wherever necessary.**
  - 4) **Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.**

**SECTION – B**  
**(SAQ)**

2. Answer the following (any five out of six) : (5x3=15)

- a) Sources of frustration.
- b) Define conflict and list the types of conflict.
- c) Write a note on neurons.
- d) Write down any six personal qualities of a counsellor.
- e) Psychological needs of an infant.
- f) What do you mean by aptitude ? Give an example.

3. Answer the following (any three out of four) : (3x5=15)

- a) Characteristics of a mentally healthy person.
- b) Causes of Mental Retardation.
- c) Mental hygiene – Give a note.
- d) Define memory and explain types of memory.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both primary and secondary data collection techniques. The analysis focuses on identifying trends and patterns over time, which is crucial for making informed business decisions.

The third part of the report addresses the challenges faced during the data collection process. It highlights the need for consistent data entry and the importance of regular audits to catch any errors early on. The author also discusses the impact of external factors on the data's reliability.

Finally, the document concludes with a summary of the findings and recommendations. It suggests that implementing a robust data management system is essential for long-term success. The author also provides a list of resources for further reading on data analysis and business strategy.

QUESTION BOOKLET VERSION : MUHS, NASHIK - MAY/JUNE 2009 EXAM

Name of the Examination : \_\_\_\_\_

Subject : \_\_\_\_\_ Section : A

Question Booklet Version
<b>N 172</b>

Seat No.				

Answer Sheet No.					

This is to certify that, the entries of Examination, Subject, Seat No. and Answer Sheet No. have been correctly filled and verified.

Candidate's Signature

Invigilator's Signature

Date :

Date :

INSTRUCTIONS TO CANDIDATES

- 1) This question booklet contains objective type questions.
- 2) The question paper and OCR Answer Sheet shall be issued separately at the start of the examination.
- 3) Candidate should carefully read the instructions printed on the Question booklet and Answer Sheet and enter correct details of their **Seat No., Question booklet version No. etc.** on the Question paper and Answer Sheet. The candidate must sign on the Answer Sheet and question booklet after filling necessary details. The correctness of details entered by the students has to be cross checked by the invigilator and then only he should sign on the same.
- 4) During the time of examinations:
  - a) Read each question carefully.
  - b) Choose the correct answer from the four available options given under each question.
  - c) Fill (Dark) the empty circle of your choice completely below the question number in the answer sheet with **Blue/Black ball point pen only**. An example is given below :

Q. No. 1 : The Taj Mahal is located at :

- (a) Agra
- (b) Delhi
- (c) Lucknow
- (d) Hyderabad

Correct	Wrong	Wrong	Wrong
<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

In the above example, the correct answer is 'a' (Agra). The candidate should dark the circle as above corresponding to 'a' under Question No. 1 on the answer sheet. If cross/tick/dot marked instead of darkening the circle, it shall not be considered as valid method and marks will not be allotted.

**Note :** Double entry i.e. Darkening more than one circle or even putting dot on other vacant circle is not permitted and no marks will be given to such attempt.

- 5) Rough work should be done only on the **blank space** provided on the question booklet. **Rough work should not be done on the Answer Sheet.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 6) The Answer Sheet and the question booklet should be returned to the invigilator **immediately** after the prescribed MCQ paper examination time is over.
- 7) **No candidate is allowed to leave the examination hall till the examination session is over.**

**First Basic B.Sc. Nursing Examination, May/June 2009**  
**PSYCHOLOGY**

Total Duration : Section A + B + C = 3 Hours

Section A Marks : 15

**SECTION-A**  
**(MCQ)**

**Instructions:** 1) Fill (dark) the appropriate empty circle below the question number once only.

2) Use blue/black ball point pen only.

3) Each question carries half mark.

4) A student will not be allotted any marks if he/she overwrites, strikes out or puts white ink on the circle once-filled (darkened).

5) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

(30 × 1/2 = 15)

1. Psychology is a \_\_\_\_\_ science.
- a) Normative      b) Natural      c) Artificial      d) Normal
2. The subfield of psychology which studies various types of group Phenomena like public opinions, attitudes, beliefs etc. is
- a) Counselling psychology      b) Community psychology  
c) Applied psychology      d) Social psychology
3. Which one of the following is less objective ?
- a) Survey method      b) Questionnaire method  
c) Introspection method      d) Experimental method
4. The part of brain that regulates higher levels of cognitive and emotional functions
- a) Cerebellum      b) Cerebrum  
c) Limbic system      d) Spinal cord
5. The gland that is called as master gland is
- a) Pituitary      b) Thyroid      c) Thymus      d) Adrenal
6. It is the result of physical stimuli operating on our nervous system
- a) Attention      b) Observation      c) Perception      d) Sensation
7. The retina contains about \_\_\_\_\_ million cones and \_\_\_\_\_ million rods
- a) 12 and 160      b) 6 and 120      c) 160 and 12      d) 120 and 6

8. The condition in which a person cannot respond to any sensory stimuli is
  - a) Anesthesia
  - b) Blocking
  - c) Hyperthnesia
  - d) Parasthesia
9. Which of the following are the principle of organization ?
  - a) Similarity
  - b) Proximity
  - c) Continuation and closure
  - d) All the above
10. Learning takes place best when a person is ready to learn is best explained by
  - a) Law of effect
  - b) Law of purpose
  - c) Law of readiness
  - d) Law of multiple learning
11. The full form of WAIS is
  - a) Wechsler Adapted Intelligence Scale
  - b) Wechsler Aptitude Intelligence Scale
  - c) Wechsler Adult Intelligence Scale
  - d) Wechsler Adult International Score
12. Public opinion polling is one of the ways of measurement of
  - a) Attitude
  - b) Intelligence
  - c) Learning
  - d) Personality
13. Acquired drives is another name for \_\_\_\_\_ motives
  - a) Physiological
  - b) Social
  - c) Organic
  - d) Biological
14. Erickson's stages of psycho social development consists of
  - a) Four stages
  - b) Five stages
  - c) Eight stages
  - d) Nine stages
15. The physical, environmental and social causes of stress state are termed as
  - a) stressors
  - b) tension
  - c) conflict
  - d) life events
16. A classic approach to the reduction of anger and aggression is called
  - a) Punishment
  - b) Conditioning
  - c) Transference
  - d) Catharsis
17. Directing unacceptable desires into socially acceptable behaviour is
  - a) Sublimation
  - b) Conversion
  - c) Compensation
  - d) Displacement
18. The sexual energy that underlies the biologically based urges is called as
  - a) Id
  - b) Ego
  - c) Libido
  - d) Fixation
19. The father of psychoanalysis is
  - a) Carl Roger
  - b) Sigmund Freud
  - c) Ivan Pavlov
  - d) William Wundt
20. The blocking of behaviour directed towards a goal, results in
  - a) Anxiety
  - b) Stress
  - c) Tension
  - d) Frustration

21. Classification of personality in to Extroverts and introverts is given by  
a) William Sheldon  
b) Karl Jung  
c) Kretschmer  
d) Allport
22. Intelligence refers to  
a) Affective capacity  
b) Learning capacity  
c) Cognitive capacity  
d) Conative capacity
23. The type of conflict which is stressful and leads to indecision, freezing and escaping is  
a) Avoidance - Avoidance conflict  
b) Approach - Approach conflict  
c) Approach - Avoidance conflict  
d) Multiple approach-Avoidance conflict
24. H.A.Murray has developed  
a) Inkblot test  
b) Sentence completion test  
c) 16 personality traits  
d) Thematic Apperception Test (TAT)
25. Which of the following is a error in perception ?  
a) Delusions  
b) Obsession  
c) Illusions  
d) Compulsion
26. The variable that is manipulated by the experimenter is known as  
a) Independent variable  
b) Dependent variable  
c) Control variable  
d) Multiple variable
27. Short Term Memory (STM) capacity seems to be limited to \_\_\_\_\_ units of information  
a) 6  
b) 7  
c) 8  
d) 9
28. Which of the following factors can improve memory ?  
a) Encoding and storing the information  
b) Retaining it over a period of disuse  
c) Retrieving it at the time of recall  
d) All the above
29. A combination of characteristics indicative of an individuals capacity to acquire some specific knowledge or skill is  
a) Attitude  
b) Aptitude  
c) Ability  
d) Adaptability
30. The process with which the physiology within our body balances is  
a) Drive  
b) Motive  
c) Tension  
d) Homeostasis

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both primary and secondary data collection techniques. The primary data was gathered through direct observation and interviews with key personnel. Secondary data was obtained from internal company reports and industry publications.

The analysis of the data revealed several key trends and insights. One of the most significant findings was the impact of market fluctuations on the company's performance. The data shows a clear correlation between external economic factors and internal operational metrics.

Based on these findings, the author proposes several strategic recommendations. These include diversifying the product line to reduce dependency on a single market, improving operational efficiency through process automation, and strengthening relationships with key suppliers to ensure a stable supply chain.

Finally, the document concludes by highlighting the need for continuous monitoring and evaluation. The proposed strategies should be implemented in a phased manner, with regular progress reviews to ensure they are effectively addressing the identified challenges.

The author expresses their appreciation for the support and collaboration provided by the management and staff throughout the research process. They also acknowledge the limitations of the study, particularly the reliance on self-reported data, and suggest areas for future research.

62504

First Basic B.Sc. Nursing Examination, Nov./Dec. 2008  
**PSYCHOLOGY**

Total Duration: Section A + B + C = 3 Hours

Section B &amp; C Marks: 60

**SECTION - B & SECTION - C**

*Instructions: 1) All questions are compulsory.*

*2) The number to the right indicates full marks.*

*3) Draw diagrams wherever necessary.*

*4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.*

**SECTION - B****(30 Marks)**

2. Answer the following (any 5 out of 6): (5×3=15)
- a) Comment on intelligence as a possession.
  - b) Name any three aptitudes.
  - c) Distinguish between attitude and trait.
  - d) Write four characteristics of emotions.
  - e) Explain in one or two sentences the concept of 'id' - ego - super ego.
