

Fourth Year B.Sc. Nursing Examination, May 2002
GYNAECOLOGICAL NURSING AND MIDWIFERY

Date : 21-5-2002

Time : 2.30 p.m. to 5.30 p.m.

Total Marks : 75

SECTION - B

Marks : 30

1. Answer the following (any five) :

(6×5)

- a) Post Partum Hemorrhage
- b) Hydatidiform mole 190
- c) Induction of labour 522
- d) Ventouse 580
- e) Ante-natal care 94
- f) Temporary methods of family planning 534

SECTION - C

Marks : 30

- II. a) Define abortion. 158
- b) Classify the types of abortion. 2
- c) Discuss in detail the management of threatened abortion. 3
- III. a) Define uterovaginal prolapse. 10
- b) List the types of utero-vaginal prolapse. 1
- c) What are degrees of uterine prolapse? 2
- d) Enumerate the clinical features of uterine prolapse. 2
- e) Discuss in detail the pre and post operative management of a patient undergoing vaginal hysterectomy. 4

Fourth Year B.Sc. Nursing Examination, May 2002
GYNAECOLOGICAL NURSING AND MIDWIFERY

Total Marks : 75

Date : 21-5-2002
Time : 2.30 p.m. to 5.30 p.m.

SECTION - B

Marks : 30

(6x5)

I. Answer the following (any five) :

- a) Post Partum Hemorrhage
- b) Hydatidiform mole 190
- c) Induction of labour 522
- d) Ventouse 580
- e) Ante-natal care 94
- f) Temporary methods of family planning 534

SECTION - C

Marks : 30

- II. a) Define abortion. 158 2
- b) Classify the types of abortion. 3
- c) Discuss in detail the management of threatened abortion. 10
- III. a) Define uterovaginal prolapse. 1
- b) List the types of utero-vaginal prolapse. 2
- c) What are degrees of uterine prolapse ? 2
- d) Enumerate the clinical features of uterine prolapse. 4
- e) Discuss in detail the pre and post operative management of a patient undergoing vaginal hysterectomy. 6

Fourth B.Sc. (Nursing) Examination, June/July 2004
 GYNAECOLOGICAL NURSING AND MIDWIFERY

Total Duration : Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION - B & SECTION - C

- Instructions:**
- 1) All questions are compulsory.
 - 2) The number to the right indicates full marks.
 - 3) Draw diagrams wherever necessary.
 - 4) Answer each Section in the respective answer sheet only.
 - 5) Answers written in the inappropriate Sectional answer books will not assessed in any case.

SECTION - B

2. Answer the following (any five out of six):
- a) Management of breast feeding during puerperium
 - b) Investigations in infertility in males and female
 - c) Management of foetal distress during labour.
 - d) The fetal skull 83
 - e) Oxytocin
 - f) Amniocentesis 647.

(5×6=30)

SECTION - C

3. a) Define post partum haemorrhage. 410 (1×2=2)
- b) Enumerate the causes of primary post partum Haemorrhage. (1×3=3)
- c) Discuss the preventive and active management of atonic haemorrhage. (1×10=10)
4. a) Define uterine prolapse. (1×1=1)
- b) Write the degrees of uterine prolapse. (1×2=2)
- c) Write the causes of uterine prolapse. (1×2=2)
- d) Write the clinical features of uterine prolapse. (1×4=4)
- e) Discuss the nursing management of a patient of vaginal hysterectomy. (1×6=6)

IV B.Sc. (Nsg.) Examination, October 2003
GYNAECOLOGICAL NURSING & MIDWIFERY

Total Duration: Section A + B + C = 3 Hours

Section B + C Marks: (60)

SECTION - B & SECTION - C

- Instructions:**
- 1) All questions are compulsory.
 - 2) The number to the right indicate full marks.
 - 3) Draw diagrams wherever necessary.
 - 4) Answer each Section in the respective answer sheet only.
 - 5) Answers written in the inappropriate sectional answer books will not be assessed in any case.

SECTION - B

2. Answer the following any five out of six:

(5×6 = 30)

- a) Functions of placenta. 35
- b) Lochia. 146
- c) Apger score.
- d) Cu T. 534
- e) Vasectomy. 552
- f) Dilatation and curettage. 563

SECTION - C

3. a) Define infertility.

(1×2 = 2)

b) Write the factors in female responsible for infertility.

(1×3 = 3)

c) Enumerate the seven steps of investigation at level I and level II case of infertility.

Discuss in detail about basal body temperature recording and charting along with its interpretation.

(1×10 = 10)

4. a) Define multiple pregnancy.

200

(1×1 = 1)

b) Enumerate the varieties of multiple pregnancy.

(1×2 = 2)

c) List the causes of multiple pregnancy.

(1×2 = 2)

d) How will you diagnose the multiple pregnancy?

(1×4 = 4)

e) Discuss ante-natal management of twin pregnancy.

(1×6 = 6)

Section B & C Marks: 60

5) Answers written in the inappropriate sectional answer books will not be assessed in any case.

 $5 \times 6 = 30$

- a) Episiotomy 569.
- b) Supports of uterus and vagina (pelvic floor)
- c) Complications of Puerperium 432
- d) Mind ailments of pregnancy 151.
- e) USG in obstetrics and gynaecology
- f) Prostaglandins 523

1x2.

- b) List down the predisposing and etioloical factors of APH. 1x3
- c) Discuss the management of APH and list down the complications. 1x10

24.8.

$$= 15$$

- 1x1

- c) Discuss the factors which leads to development of anaemia in pregnancy. 1x2

- e) Discuss the management of a primi gravida at 38 wks of gestation with an Hb% 7 gm (Fe deficiency)

$$1 \times 6 = 6$$

Total Duration: Section A+B+C = 3 Hours

Section B & C Marks: (4)

SECTION - B & SECTION - C

- Instructions: 1) All questions are compulsory.
2) The number to the right indicate full marks.
3) Draw diagrams wherever necessary.
4) Answer each section in the respective answer sheet only.
5) Answers written in the inappropriate sectional answer book will not be assessed in any case.*

SECTION - B

(5×6=30)

2. Answer the following any five out of six:

- a) Investigation of the male partner in infertility management.
- b) Pre-operative preparation in myomectomy
- c) Perinatal mortality 6.105.
- d) Partogram 5.1.
- e) Management of heart disease in labour 2.7.7.
- f) Prostaglandin. 5.03

SECTION - C

3. a) Define puerperal sepsis (1×2=2)
- b) Discuss the organisms responsible for puerperal sepsis and mode of transmission of infection. (1×3=3)
- c) Enumerate the clinical features and discuss the treatment of puerperal sepsis. (1×10=10)
4. a) List the methods of assessing fetal and maternal well being during pregnancy. (1×1=1)
- b) Enumerate the biochemical methods of maternal fetal well being during late pregnancy. (1×2=2)
- c) What are the biophysical methods of assessing maternal fetal well being during late pregnancy? (1×2=2)
- d) What antenatal advices will you give to a primigravida mother at 28 weeks of gestation? (1×4=4)
- e) Highlight the chief principles of antenatal care. (1×6=6)

Fourth Basic B.Sc. Nursing Examination, May/June 2010
MIDWIFERY AND OBSTETRICAL NURSING

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION - B & SECTION - C

Instructions: 1) All questions are compulsory.

2) The number to the right indicates full marks.

3) Draw diagrams wherever necessary.

4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B
(SAQ)

2. Answer the following (any five out of six) :

(5×3=15)

- ✓ a) USG in obstetrics
- b) Causes of IUGR
- ✓ c) Emergency contraception
- ✓ d) Nursing responsibilities in administration of oxytocin drip
- ✓ e) Feeding of high risk neonates
- ✓ f) Stages of normal labour.

3. Answer the following (any 3 out of 4) :

(3×5=15)

- ✓ a) Maternal mortality and morbidity
- ✓ b) Etiology and diagnosis of foetal distress
- ✓ c) HIV in pregnancy
- d) Diet in pregnancy.
- e) Causes of infertility.

SECTION - C

(LAQ)

4. Attempt any two LAQ out of three :

(2×15=30)

i) a) Define normal labour.

(1×2=2)

b) Discuss the principal factors in initiation of labour.

(1×5=5)

c) Discuss the role and responsibilities of nurse midwife in first and second stage of labour.

(1×8=8)

ii) a) Define anaemia in pregnancy.

(1×2=2)

b) Write the etiological factors of anaemia in pregnancy.

(1×5=5)

c) Discuss the antenatal, intranatal and postnatal management of primigravida with anaemia in pregnancy.

(1×8=8)

iii) a) Define puerperium.

(1×2=2)

b) List the physiological changes occurs during puerperium.

(1×5=5)

c) Write the nursing management of woman during puerperial period.

(1×8=8)

4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION-B

2. Answer the following (any 5 out of 6) :

(5×3=15)

- a) Clinical significance of Amniotic fluid
- b) Hormonal contraception
- c) Non stress test
- d) Causes of Post partum Haemorrhage
- e) Difference of oxytocins and Ergot derivatives
- f) Supine Hypotension.

3. Answer the following (any 3 out of 4) :

(3×5=15)

- a) Fetal Circulation
- b) Prolong labour management
- c) Nursing care of low birth weight babies
- d) Safe Motherhood.

P.T.O.

SECTION - C

4. Attempt any 2 LAQ out of 3 :

(2×15=30)

A) Mrs. Kavita, primigravida admitted in labour ward with frequent uterine contractions, P.V. Examination cervix 2.5 cms dilated.

- 1) Define first stage of Labour. 2
- 2) Explain physiological events of first stage of labour. 4
- 3) Describe the components of Partograph. 4
- 4) Write the Nursing care plan for five priority Nursing diagnosis for Mrs. Kavita. 5

B) Mrs. Laxmi admitted to postnatal ward, one hour after delivery.

- 1) Define period of Puerperium. 2
- 2) Write immediate assessment to be done for Mrs. Laxmi. 4
- 3) Postnatal care and advices that you would give to Mrs. Laxmi; Mention briefly. 4
- 4) Write Nursing care plan for 5 priority nursing diagnosis for Mrs. Laxmi. 5

C) 1) Define the term Placenta Praevia.

- 2) Describe the types of placenta Praevia. 3
- 3) Difference between Abruptio Placentae and Placenta Praevia. 4
- 4) Write the management of Placenta Praevia. 6

SECTION - B

(5×3=15)

2. Answer the following (any 5 out of 6) :

- ☒ a) Clinical significance of Amniotic fluid
- b) Hormonal contraception
- ☒ c) Non stress test
- d) Causes of Post partum Haemorrhage
- e) Difference of oxytocins and Ergot derivatives
- f) Supine Hypotension.

3. Answer the following (any 3 out of 4) :

(3×5=15)

- a) Fetal Circulation
- ☒ b) Prolong labour management
- ☒ c) Nursing care of low birth weight babies
- d) Safe Motherhood.

P.T.C

SECTION - C

4. Attempt any 2 LAQ out of 3 :

(2 × 15 = 30)

A) Mrs. Kavita, primigravida admitted in labour ward with frequent uterine contractions. P.V. Examination cervix 2.5 cms dilated.

- 1) Define first stage of Labour. 2
- 2) Explain physiological events of first stage of labour. 4
- 3) Describe the components of Partograph. 4
- 4) Write the Nursing care plan for five priority Nursing diagnosis for Mrs. Kavita. 5

B) Mrs. Laxmi admitted to postnatal ward, one hour after delivery.

- 1) Define period of Puerperium. 2
- 2) Write immediate assessment to be done for Mrs. Laxmi. 4
- 3) Postnatal care and advices that you would give to Mrs. Laxmi; Mention briefly. 4
- 4) Write Nursing care plan for 5 priority nursing diagnosis for Mrs. Laxmi. 5

C) 1) Define the term Placenta Praevia. 2

- 2) Describe the types of placenta Praevia. 3
- 3) Difference between Abruptio Placentae and Placenta Praevia. 4
- 4) Write the management of Placenta Praevia. 6

Fourth Basic B.Sc. Nursing Examination, Winter 2011
MIDWIFERY AND OBSTETRICAL NURSING

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks : 60

SECTION - B & SECTION - C

- Instructions :*
- 1) All questions are compulsory.
 - 2) The number to the right indicates full marks.
 - 3) Draw diagrams wherever necessary.
 - 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

2. Answer the following (any five out of six) :

(5×3=15)

- a) Non-stress test
- b) Indicators for caesarean section
- c) Partogram
- d) Diet in pregnancy
- e) Assisted reproductive technology in infertility
- f) Advantages of partogram.

3. Answer the following (any three out of four) :

(3×5=15)

- a) Lactation
- b) Prevention of anemia in pregnancy
- c) Antenatal assessment for twins pregnancy
- d) Difference between placenta praevia and abruptio placenta.

P.T.O.

SECTION - C

4. Write long answers (any two out of three) : (2×15=30)
- A) 1) List down various abnormal presentations. 2
- 2) Discuss events (physiological changes) occurring in second stage of labour. 5
- 3) Explain management of third stage of labour. 8
- B) 1) Write immediate assessment of newborn. 4
- 2) List down immediate needs of newborn. 4
- 3) Make nursing care plan to meet immediate needs of newborn according to priority. 7
- C) 1) What is pregnancy induced hypertension ? 2
- 2) Discuss effects of PIH on fetus and mother. 5
- 3) Write antenatal management of a mother with PIH. 8
-

2. Answer the following (any five out of six) :

(5×3=15)

- a) Cu 'T'
- b) MSV Technique
- c) Complications of post dated pregnancy
- d) Oxytocin
- e) Neonatal Assessment
- f) Define contraceptive

3. Write short answer on (any three out of four) :

(3×5=15)

- a) Management of HIV +ve mother in labour
- b) Abruptio placentae
- c) Pantograph
- d) Physiology of lactation

P.T.O.

SECTION - C

Answer any two out of three :

(2x15=30)

4. Mrs. Rani, 22 yr. old primi-gravidae reported to labour room with H/O 38 wks amenorrhoea and lower abdominal pain with leaking of amniotic fluid per vaginum.
- a) Define labour. 2
 - b) Explain the mechanism of LOA. 5
 - c) Discuss intrapartum nursing care plan for Mrs. Rani. 8
5. a) What Rh incompatibility ? 2
- b) List the maternal and foetal complications. 5
 - c) Discuss the management of a second gravida women at 28 weeks of POG. 8
6. Mrs. Meera, 23 yr. old primi gravidae is admitted to maternity ward with H/O 34 weeks amenorrhoea and diagnosis of PIH.
- a) What is PIH ? Classify PIH. 3
 - b) Enumerate the clinical features of Eclampsia. 4
 - c) Discuss the short term nursing care of Mrs. Meera. 8
-

Fourth Basic B.Sc. Nursing Examination, Summer 2014
MIDWIFERY AND OBSTETRICAL NURSING

Total Duration : Section A + B + C = 3 Hours

Section B & C Marks : 60

SECTION – B & SECTION – C

- Instructions :**
- 1) Use blue/black ball point pen only.
 - 2) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) All questions are compulsory.
 - 4) The number to the right indicates full marks.
 - 5) Draw diagrams wherever necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all Sections.

SECTION – B

(30 Marks)

2. Answer the following (any five out of six) :

(5x3=15)

- a) Biophysical profile
- b) Stages of labour
- c) Complications of multiple pregnancy
- d) Minor ailments in puerperium
- e) Difference between caput succedaneum and cephal hematoma
- f) Prevention of puerperal sepsis

P.T.O.

62801

3. Answer the following (any three out of four) :

(3x5=15)

- a) Amniotic fluid embolism
- b) Perineal tear
- c) Pain management in labour
- d) Care of preterm baby

SECTION – C

(30 Marks)

4. Answer the following (any two out of three) :

(2x15=30)

- a) Define pre eclampsia. List down the diagnostic criteria of pre eclampsia. Describe the clinical features of pre eclampsia. Discuss the nursing management of pre eclampsia.
- b) What do you understand by malpresentation ? What are the different types of breech presentation ? How can you diagnose breech presentation ? How can you manage breech delivery as a midwife ?
- c) Define anemia in pregnancy. Explain the classification of anemia and its causes. Describe the management of anemia in pregnancy.

Fourth Basic B.Sc. Nursing Examination, Summer 2015
MIDWIFERY AND OBSTETRICAL NURSING

Total Duration : Section A+B = 3 Hours

Total Marks : 75

SECTION – A & SECTION – B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory.**
 - 4) The number to the **right** indicates **full marks**.
 - 5) Draw diagrams **wherever necessary**.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) **Use a common answer book for all Sections.**

SECTION – A

(40 Marks)

1. Short answer question (**any five** out of six) :

(5x5=25)

- a) Causes of prolonged labour. ²
- b) Antenatal advices. ³
- c) Obstetrical emergencies. ³
- d) Injection anti-D. ³
- e) Bishop Score. ³
- f) Minor ailments in pregnancy.

2. Long answer question (**any one** out of two) :

(1x15=15)

- a) Define ²Abortion. Briefly explain the types of Abortion. Discuss the nursing ³⁻²management of case of incomplete abortion.
- b) Define anemia in pregnancy. Explain the classification of anemia and its causes. Describe the management of iron deficiency anemia in pregnancy.

P.T.O.

SECTION - B

(35 Marks)

3. Short answer question (any four out of five) :

(4x5=20)

- ☒ a) Partograph.
- b) Methods of removal of placenta.
- ☒ c) Prenatal counselling.
- ☒ d) Causes of Antepartum hemorrhage. 3
- ☒ e) Nursing care of preterm baby. 3

4. Long answer question (any one out of two) :

(1x15=15)

- a) Define Puerperal sepsis. Explain causes of it. Write the Medical and Nursing management of Puerperal sepsis.
- b) Define oligohydramnios. Discuss its effects on the fetus. Brief the nursing management of a client with oligohydramnios.

Fourth BASIC B.Sc. NURSING, Winter 2015
Midwifery and Obstetrical Nursing

Total Duration: Section A+B = 3 Hours

Total Marks: 75

- 3) All questions are compulsory.
- 4) The number to the right indicates full marks.
- 5) Draw diagrams wherever necessary.
- 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
- 7) Use a common answerbook for all sections.

Section "A" (40 Marks)

1. Short answer question (any five out of six) :

(5x5=25)

- a) Causes of anemia in pregnancy.
- b) Essential care of newborn.
- c) HELLP syndrome.
- d) Objectives of antenatal care.
- e) Management of puerperal pyrexia.
- f) Pitocin.

2. Long answer question (any one out of two) :

(1x15=15)

- a) Define oligohydramnios. Enlist causes of oligohydramnios. Discuss management of oligohydramnios.
- b) Define normal labour. Enumerate stages of normal labour. Discuss the management of second stage of labour.

Section "B" (35 Marks)

3. Short answer question (any four out of five) :

(4x5=20)

- a) Management of threatened abortion.
- b) Episiotomy.
- c) Dysmenorrhoea.
- d) Prevention of H.I.V in newborn
- e) Care of unmarried mother.

P.T.O.

4. Long answer question (any one out of two) :

(1x15=15)

- a) Define pregnancy induced hypertension (PIH). Enlist causes of P.I.H. Discuss management of preeclampsia.
 - b) Define puerperium. Enlist complications of postpartum haemorrhage. Describe management of Postpartum haemorrhage.
-

Fourth Basic B.Sc. Nursing Examination, Summer 2016
MIDWIFERY AND OBSTETRICAL NURSING
